RELATED EXPERIENCE

UCLA Memory and Lifespan Cognition Lab   Los Angeles, CA

Graduate Researcher   September 2021-Present

- Conduct research on human memory, cognition, and aging, primarily focusing on older adults' susceptibility to falling for scams by investigating and using current methodologies
- Conduct and create experiments, including online experiments using M-Turk, Psychopy, Qualtrics, and Prolific, resulting in a total of 7 simultaneous projects
- Analyze data using various statistical methods, and create data visualizations using R, Excel, and Jamovi
- Present findings quarterly to an advisor and 5 fellow graduate students using PowerPoint. Gave 2 poster presentations at international conferences and published 1 paper in a top-tier journal

Union College Speech Perception and Auditory Neuroscience Lab   Schenectady, NY

Research Assistant   2018-2021

- Conducted research on speech perception, hearing loss, and cognitive control by using current methodologies and conducting in-person and online data collection for 2 research projects
- Analyzed data using R, Python, and JASP to create data visualizations and run statistical analyses
- Presented findings quarterly to fellow undergraduates and presented posters at 5 national conferences

Union College Healthy Aging & Neuropsychology Lab   Schenectady, NY

Research Fellow   2019

- Conducted 10 interviews on the health and well-being of older adults to create a poster presentation
- Tested older adult participants in person using neuropsychological assessments

The Eppler-Wolff Center for Psychological Services, Union College Schenectady, NY

Intern   2020

- Researched and compiled resources for community members experiencing anxiety to create a PowerPoint presentation for community use that became a publicly available resource
- Created a community survey about anxiety and proposed ways for the Center to increase awareness of anxiety resources through results from the survey

UCLA   Los Angeles, CA

Teaching Associate   2022-Present

- Served as an intermediary between professors and students by communicating complex information to novice audiences through one-on-one sessions and for groups of 4-28 students
- Assisted in teaching 7 UCLA undergraduate courses ranging in size from 20-286 students by supervising classroom-related supplies, duties, and paperwork
- Taught and mentored students on how to use computer programs such as Excel, Psychopy, and R Studio

SKILLS

Computer: R Studio, Python, Microsoft Office, Google Spreadsheets, SQL, MATLAB, Qualtrics, Jamovi, SPSS
