

Kylie Alberts, Ph.D. (She/Her/Hers)

(925)768-9808 | albertsk@g.ucla.edu | [Linkedin](#) | Los Angeles, CA

EDUCATION

University of California, Los Angeles (UCLA)	Los Angeles, CA
<i>Ph.D. Cognitive Psychology</i>	2026
<i>M.A. Cognitive Psychology</i>	2022
Union College	Schenectady, NY
<i>B.S. Neuroscience, Minors in Data Analytics and German</i>	2021

RELATED EXPERIENCE

Data Science Intern	Remote
<i>American AgCredit</i>	2025

- Analyzed and cleaned large external and internal risk financial datasets and assessed variable importance.
- Presented analytical findings and data visualizations to both technical and non-technical stakeholders; incorporated feedback to refine analyses and model recommendations that informed the development of a predictive system that identified 4,000+ potentially risky loans.
- Engineered machine learning techniques by performing Weight of Evidence (WOE) transformations of important variables and integrating them into a logistic regression model using RStudio ("stats" package).

Graduate Researcher	Los Angeles, CA
<i>UCLA Memory and Lifespan Cognition Lab</i>	2021-Present

- Analyzed quantitative and qualitative data from 1,500+ participants using statistical and machine learning methods to identify group differences, and used these findings to develop evidence-based intervention recommendations for the populations studied.
- Conducted research on human memory and aging, focused on older adults' susceptibility to scams and fraud, and authored a 200+ page doctoral dissertation using contemporary research methodologies.
- Designed and conducted experiments, including online experiments using M-Turk, Psychopy, Qualtrics, and Prolific, resulting in a total of 7 simultaneous projects.
- Presented findings quarterly to an advisor and 5 fellow graduate students. Gave 2 poster presentations at international conferences resulting in the publication of 6 papers in top-tier journals including APA.

Research Assistant	Schenectady, NY
<i>Union College Speech Perception and Auditory Neuroscience Lab</i>	2018-2021

- Analyzed temporal data using R, Python, and JASP to create data visualizations and run statistical analyses.
- Conducted research on speech perception, hearing loss, and cognitive control by using current methodologies and conducting in-person and online data collection for 2 research projects.
- Presented findings quarterly to fellow undergraduates and presented posters at 5 national conferences.

Research Fellow	Schenectady, NY
<i>Union College Healthy Aging & Neuropsychology Lab</i>	2019

- Conducted 10 interviews on the health and well-being of older adults to create a poster presentation.
- Tested older adult participants in person using neuropsychological assessments.

Teaching Fellow	Los Angeles, CA
<i>UCLA</i>	2022-Present

- Assisted in teaching 12 UCLA undergraduate courses, ranging in size from 20 to 286 students, by supervising classroom-related supplies, duties, and paperwork.
- Taught and mentored students on how to use computer programs such as Excel, Psychopy, and R Studio.

SKILLS

Computer: R Studio (dplyr, stats, lmer4, tydr, ggplot2), Python (Pandas, NumPy, Scikit-learn), SQL, Git, Microsoft Office, Google Spreadsheets, Qualtrics, Bayesian Inference, Jamovi, SPSS, MATLAB

Projects: American AgCredit Intern Project (2025), California Wildfire Project (2019) [link](#)
